

Experience Sharing on IAQ Management

Free

Date: 25 August 2017 (Friday)

Time: 2:30 p.m. – 5:00 p.m. (Registration starts at 2:00p.m)

Venue: HKPC Building, 78 Tat Chee Avenue, Kowloon Tong

Language: Cantonese (Presentation slides in Chinese or English)

Most of the premises in Hong Kong are air-conditioned and on average we spend more than 70% of our time indoor such as at homes and in offices. In fact, indoor environment has an essential impact on our health, comfort and productivity.

This seminar is organized by the IAQ information Centre with a view to enhancing the awareness on IAQ, and providing practical guidance to achieve effective IAQ management.

Description of Guest Speaker for Technical Sharing:

Mr. Leung Wai Ho has been working for Ove Arup & Partners Hong Kong Ltd as a Sustainable Design Engineer in Building Sustainability Group. He has participated in a variety of projects including commercial, institutional and recreational projects in Hong Kong and Mainland China. He has experiences in sustainable MEP system works and the design and implementation of Indoor Air Quality Management. He is a BEAM Pro, LEED® and WELL Accredited Professional who expertise in managing green building assessment and Indoor Environmental Quality Control in Asia.
